Accompanying Statement of Operating Procedures

WaveCrest Communications LLC ("WaveCrest") holds an international 214 authorization (ITC-214-20020214-00056) and provides wholesale international telecommunications services. The following description summarizes its operating procedures in place to ensure compliance with the Commission's CPNI rules (47 C.F.R. §§ 64.2001-2009):

- As a wholesale provider of international telecommunications services, WaveCrest does not provide service to any end users. Its customers are other carriers. In order to provide wholesale international telecommunications services, for each telephone call from a customer carrier, WaveCrest records and stores a Call Detail Record, which consists only of originating and terminating telephone number, date/time and duration of call, and internal WaveCrest network information. WaveCrest has no need to and does not determine the identity of individual end users from Call Detail Records. In addition, WaveCrest does not generate, receive or have access to any other CPNI information regarding individual end users.
- WaveCrest does not market, whether internally or to affiliated or unaffiliated third parties, any Call Detail Records it obtains as a result of its provision of wholesale international telecommunications services.
- Access to the Call Detail Records is restricted to a small, select group of WaveCrest employees, who receive continual training and updates regarding all applicable requirements to protect all such information from improper use, disclosure or access.
- WaveCrest also has a full-time employee dedicated to investigate any evidence of possible fraud or other allegations of improprieties regarding WaveCrest's operations, including access to and use of Call Detail Records for the provision of wholesale international telecommunications services.
- Any unauthorized access, use or disclosure of Call Detail Records in WaveCrest's possession by any employee would subject him or her to disciplinary action, including the possibility of immediate dismissal.
